## We bring all of your Goodness together So you can spread it further

As a certified B Corporation, we take our social mission to make a dent in the universe seriously. Our vision is that, our collective pursuit of Goodness will be proof that Good business is both possible and profitable. Together with some of the world's most iconic brands, we're changing the world one donation and volunteer shift at a time. All through the only single solution that brings everything together — giving, matching, volunteering, rewards, corporate granting and more — to change the way people connect to their causes, their company and the world.

## 5 Reasons to Talk to Us (While we're here!)

- 1 We'll answer when you call** – ask any Benevity client and you'll hear that we don't just answer your calls, we go above and beyond, helping our clients find innovative, yet proven, ways to increase participation in their programs.
- 2 We have the only complete international solution** – You may have heard about the new Benevity OneWorld™. It's the easiest way for your employees to access over 2 million charities in more than 200 countries and 15 languages — and offers you the assurance that you're complying with all regulatory requirements.
- 3 We distribute funds more effectively** – because we own our very own charity platform, we don't rely on third-party affiliates to issue payments to charities around the world. Instead, we use a single database, a common workflow and we now partner with TechSoup to ensure your funds are going to vetted charities.
- 4 Our single solution does it all** – We bring together everything you might want in one place — giving, matching, volunteering, rewards, corporate granting and more — which is more cost effective and helps you consolidate your budget for greater impact.
- 5 You get what you want (and need)** – whether you use our technology to run United Way programs or open-choice, year-round programs, Benevity can help you reduce the administrative workload it takes to run impactful giving programs.
