

2021 Corporate Social Investment and Environmental, Social and Governance (ESG) Questionnaire

CECP Data Sharing Policy

Summary

- The CECP corporate community agrees to operate under a principle of mutual advancement. Company-specific information should be used internally only, and under no circumstances used in a public or defamatory manner.
 - The data is company-reported, therefore participating companies must ensure that their data is complete and accurate.
 - Participating companies agree to have their giving information included in all aggregate, industry, classification, and peer group totals. CECP agrees to only allow benchmarking in a manner that preserves confidentiality.
 - CECP may distribute high-level findings yet is not permitted to publish any information associating a company with a particular data finding or specific company information.
 - Data supplied to this global survey is self-reported. Data points that are public information (such as revenue and number of employees) are inputted by CECP staff. However, most answers entered the system cannot be confirmed. Therefore, it is the responsibility of companies supplying data to ensure the accuracy of their responses.
 - CECP will publish an annual *Global Impact at Scale* report which contains expert data analysis and is intended to surface global trends. Printed and/or electronic copies of this document are made available to companies as a benefit of participation.
 - As a service to the field at large, CECP and CECP's Global Exchange country partners will occasionally distribute high-level findings from the data. CECP and CECP's Global Exchange country partners will not publish information that would associate a company with a particular data finding.
